18:00	Adjourn

Forum Objectives:

The IGASS Forum is in collaboration between spine surgeons and internationally recognized experts in many different areas of spinal disorders.

It is an unique opportunity for surgeons to interact with recognized spine surgery opinion leaders.

The most important goal of IGASS Forums is INTERACTION with the audience. The goals of our forums are to address controversial topics, emphasis best practises, highlight controversies of diagnosis and develop new treatment algorithms based on the expertise of key opinion leaders.

This will involve considering new perspectives in treatment options outcome measures and challenges.
